### Outline

- EGI Security Policy Group
- SCI self-assessment

# EGI Security Policy Group https://wiki.egi.eu/wiki/SPG

EGI Security Policy and SCI

# https://documents.egi.eu/document/64 (ToR)

SPG Purpose and Responsibilities

- Develop and maintain Security Policy
  - For use by EGI and NGIs
  - Define expected behaviour of NGIs, Resource Centres, Users and others
  - To facilitate the operation of a secure and trustworthy DCI
- May also provide policy advice on any security matter related to operations

# **Terms of Reference**

#### SPG Membership

- Each (associate) participant of EGI.eu is entitled to nominate one voting member
  - But consensus wherever possible
- Also each external Resource Infrastructure Provider with signed MoU
- In addition, SPG should aim to include expertise in its deliberations from other stakeholders

- Current EGI Security Policy is available at <u>https://wiki.egi.eu/wiki/SPG</u>
- As formally adopted by EGI.eu

Security policies

Glossary of terms used in security policy documents:

- Security Policy Glossary of Terms
- And the general EGI glossary

# Security for Collaborating Infrastructures (SCI)

EGI Security Policy and SCI

- To evaluate extent to which requirements are met, we recommend Infrastructures to assess the maturity of their implementations
- According to following levels
  - Level 0: Function/feature not implemented
  - Level 1: Function/feature exists, is operationally implemented but not documented
  - Level 2: ... and comprehensively documented
  - Level 3: ... and reviewed by independent external body
